e-Management Full-Time Summer IT and IT Developer Internships

e-Management, an award-winning information technology (IT) solutions firm, is quickly emerging as a leader in leveraging IT capital to help government organizations. Their services help agencies mitigate risk by planning, engineering, developing, or securing mission IT systems.

With over a decade of service to the government, e-Management brings a rare level of expertise, tools, and processes to ensure an organization’s success.

They are currently seeking a Full-Time IT Intern to support the IT infrastructure. They are also looking for a Full-Time IT Developer Intern to support their developers build cyber-attack prevention and recovery applications.
