A UB DEGREE IS CLOSER THAN YOU THINK.

You don’t have to come to Baltimore for a University of Baltimore degree.
At the Universities at Shady Grove in Rockville, Maryland, you’ll learn from expert UB faculty and benefit from easily accessible campus services including academic coaching, library access and much more. You’ll also be eligible for scholarships from both UB and the Universities at Shady Grove.

Our degree, your pace
Students who have completed 56 credits at another higher education institution can transfer to UB at the Universities at Shady Grove to earn their bachelor’s degree in one of two programs:

- B.S. in Health Systems Management
- B.S. in Simulation and Game Design.

Make a Bee Line toward your degree.
Montgomery College students should enroll in the Bee Line program, which guarantees admission and early access to priority advising and student services. You must complete at least 15 credits and have a 2.0 cumulative GPA to qualify. Learn more at ubalt.edu/beeline.
UNDERGRADUATE PROGRAMS AT SHADY GROVE CAMPUS:

B.S. in Health Systems Management
Health-care institutions in the greater Washington, D.C., region are looking for a highly educated workforce that can manage change in a turbulent environment and the Shady Grove campus’s close proximity to multiple hospitals and other medical facilities make it an ideal location for both internship and job prospects.

With our convenient 10-week-per-semester format, you can earn your degree quickly and get right to work in this high-demand field. This program is offered through a combination of in-person Saturday and online courses.

B.S. in Simulation and Game Design
More than 100 game-development companies and agencies call the Baltimore-Washington region home. Gain the skills needed to launch a career in an industry where the demand for skilled workers is high.

You can specialize in technical art or coding and development in this program. Through dual capstone seminars, you will work closely with professionals to test and build games and simulations, and then graduate with a portfolio of projects to showcase your skills. This program is offered in daytime and online formats.

I chose Health Systems Management because I was looking for a program in the health-care field. My mom’s health wasn’t great and I grew to understand a passion for nursing and caring for people. I felt making policy changes needed to come from the management level. The program covers policy and planning, and gives me a lot of perspectives on how health care works as a whole. Because I’lI have all those experiences, that will make me more marketable.”

Transfer in three steps:
1. Complete the coursework to meet the minimum admission requirements (for the Simulation and Game Design program: 56 credits or a corresponding associate degree, and the prerequisite courses; for the Health Systems Management program: 56 credits or more and an associate degree). Both degrees require a cumulative 2.0 GPA.

2. Apply at ubalt.edu/apply. Choose your intended degree program and the Shady Grove location.

3. Submit official transcripts from all previous (or current) institutions. Documents can be sent electronically to documents@ubalt.edu or mailed to the UB Office of Admission, Academic Center, Room 117, 1420 N. Charles St., Baltimore, MD 21201.
