The Registered Nurse / RN will work within the Pre-Surgical Testing Dept., which is responsible for preparing, in advance, all patients scheduled for an operative procedure. The Mission of Pretesting is to completely prepare and clear all patients scheduled for surgery prior to their admission date and prevent surgery cancellations and delays.

The Registered Nurse / RN can be responsible for chart production, nursing database, assessments, complete history and physicals, anesthesia preparation and clearance, operative consents, patient education and discharge planning.

Hours:

- Full Time, 40hrs per week
- 8a - 4:30p

Requirements:

- Licensed to practice as a Registered Nurse in the State of Maryland
- Bachelor's Degree in Nursing or currently enrolled within 6 months of hire
- Must have a minimum of one year experience

Johns Hopkins Health System and its affiliates are Equal Opportunity/Affirmative Action employers. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, national origin, disability, protected veteran status, and or any other status protected by federal, state, or local law.
