What to expect

At EY Consulting, we are building a better working world by transforming businesses through the power of people, technology and innovation. Our clients are at the heart of what we do. We’re focused on solving the key issues of our client buyers, building deeper relationships and making a greater impact with long-term value.

We focus on a variety of industries including but not limited to:

- Advanced Manufacturing & Mobility, Power & Utilities, Health Sciences & Wellness, Consumer, and Technology, Media & Entertainment, Telecommunications.
- Candidates can elect to join the Government & Public Sector (GPS) practice and will work exclusively with federal clients, as well as state and local agencies and higher education institutions.
- Candidates can elect to join the Financial Services Organization (FSO) and will focus exclusively in financial services; they will have opportunities to serve leading investment banks, retail and commercial banks, insurers and investment managers.

Whether you choose to join GPS, FSO, or pursue a broader industry focus, you will gain foundational skills for a long career.

When you join our Consulting practice as a staff, you’re a part of our Consultant Development Program. You’ll be provided learning opportunities, technical competency training, and coaching to develop core consulting skills. As a part of the Enterprise Risk and Technology Risk team, you will work hand-in-hand with senior team members to help clients improve their business performance through establishing and maintaining an effective risk and control environment. This involves assessing risks in either an advisory or audit context – both of which enable you to develop an in-depth understanding of a company’s business and IT processes, risks and controls.

Your key responsibilities may include:

- Growing lasting relationships with our clients and understanding their unique ambitions and needs to deliver reliable, tailored advice
- Understanding and documenting clients’ business and IT processes, risks, and controls
- Performing control documentation and testing through review of client evidence and interviews
- Using knowledge of the current IT environment to identify the engagement and client service issues, perform root cause analysis, and communicate this information to the engagement team through written correspondence and verbal presentations
- Collaborating with members of the engagement team to plan the engagement and develop work program timelines, assign responsibilities for key tasks and prepare other planning documents
- Taking full responsibility for tasks including consistent self-review of work to identify and improve an approach for producing high quality deliverables, while working under supervision

To qualify for the role you must have:
- A bachelor’s or master’s degree in Accounting, Information Systems, Computer Science, Finance or Management or a related discipline
- Desire to work in consulting and IT audit as demonstrated by relevant course work, interest or internship experience
- The flexibility and willingness to travel as well as work in excess of standard hours when necessary
- The understanding that travel is an essential function of the job, may vary by location and can range between 60-80%
- Proficiency with MS Office, including MS Excel, MS Word and MS PowerPoint
- Willingness and ability to learn and work independently with minimal supervision
- Demonstrated project management, teaming, organizational, analytical and problem-solving skills
- Excellent interpersonal, written and verbal communication skills
- Effective organization and time management skills with the ability to work under pressure and adhere to project deadlines
- Integrity within a professional environment
- A driver’s license valid in the U.S.
- Candidates interested in the Government & Public Sector focus must have sole U.S. citizenship and be able to obtain and maintain a secret clearance or higher, within the designated time frame, which will be determined by the engagement requirements for a security clearance.

What working at EY offers

We offer a competitive compensation package where you’ll be rewarded based on your performance and recognized for the value you bring to our business. In addition, our Total Rewards package includes medical and dental coverage, pension and 401(k) plans, a minimum of 18 days of paid time off plus 12 observed holidays and a range of programs and benefits designed to support your physical, financial and social well-being.

Plus, we offer:

- Support and coaching from some of the most engaging colleagues in the profession
- Opportunities to develop new skills and progress in your career
- Gained flexibility through two-way communication and commitment with your engagement teams
