Software Engineer, Junior
Booz Allen Hamilton

Job Location: Belcamp, Maryland, USA

Job Number: R0104493

Software Engineer, Junior

The Challenge:
Are you looking for an opportunity to combine your technical skills with big picture thinking to make an impact on our clients? You understand your customer’s environment and how to develop the right systems for their mission. Your ability to translate real-world needs into technical specifications, makes you an integral part of delivering a customer-focused engineering solution.

As a software engineer on our team, you will learn to develop, maintain, and enhance systems using next generation technologies such as Artificial Intelligence, machine learning and data science. This is your chance to develop your skills in all areas of systems engineering while gaining mentoring and experience in the consulting space. Join our team and help turn requirements into accomplishments that drive change.

Empower change with us.

You Have:
- Experience with software engineering, management, and principals in an academic or internship environment
- Experience with working in a team environment
- Knowledge of software development life cycle methodologies and associated activities
- Ability to apply critical thinking to a wide variety of problems
- Ability to obtain a security clearance
- Scheduled to obtain a BA or BS degree by Summer 2021

Nice If You Have:
- Knowledge of using requirements gathering and tracking to support IT system development
- Possession of excellent verbal and written communication skills
- Secret clearance preferred
- Pursuing a BS degree in Systems Engineering, CS, Computer Engineering, or a related field preferred; pursuing an MS degree in CS, Computer Engineering, Systems Engineering, or a related field a plus

We seek exceptional candidates from a variety of schools and programs. Individuals who are highly capable of developing insight and advice for our clients, but also highly motivated to work with our clients to help implement the solutions we develop.

Clearance:
Applicants selected will be subject to a security investigation and may need to meet eligibility requirements for access to classified information.
Build Your Career:

When you join Booz Allen, you'll have the opportunity to connect with other professionals doing similar work across multiple markets. You'll share best practices and work through challenges as you gain experience and mentoring to develop your career. In addition, you will have access to a wealth of training resources through our Engineering & Science University, an online learning portal where you can access more than 5000 tech courses, certifications, and books. Build your technical skills through hands-on training on the latest tools and tech from our in-house experts. Pursuing certifications that directly impact your role? You may be able to take advantage of our tuition assistance, onsite courses, vendor relationships, and a network of experts who can give you helpful tips. We’ll help you develop the career you want as you chart your own course for success.

We’re an EOE that empowers our people—no matter their race, color, religion, sex, gender identity, sexual orientation, national origin, disability, veteran status, or other protected characteristic—to fearlessly drive change.
