

# USG Wireless Network Setup

## iOS Devices

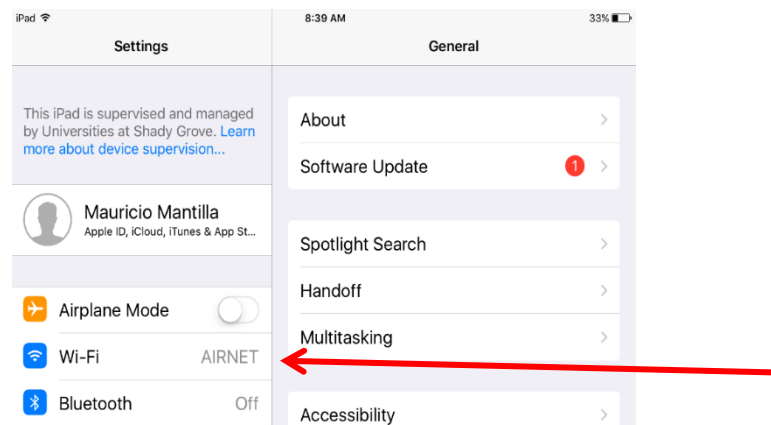

### SKYNET

This guide will provide you step-by-step instructions on how to get connected on the wireless network, SKYNET.

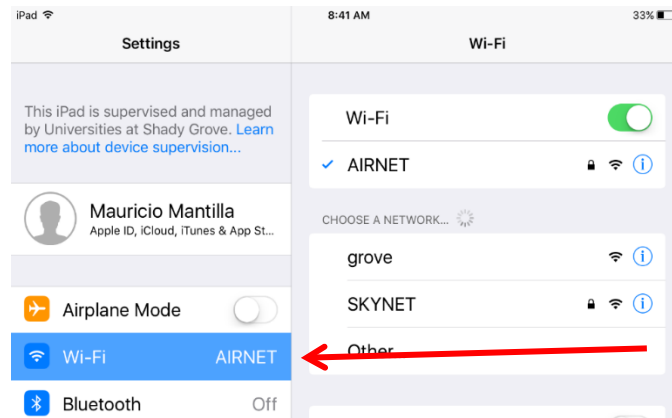

1. At Home screen select the **Settings** icon.

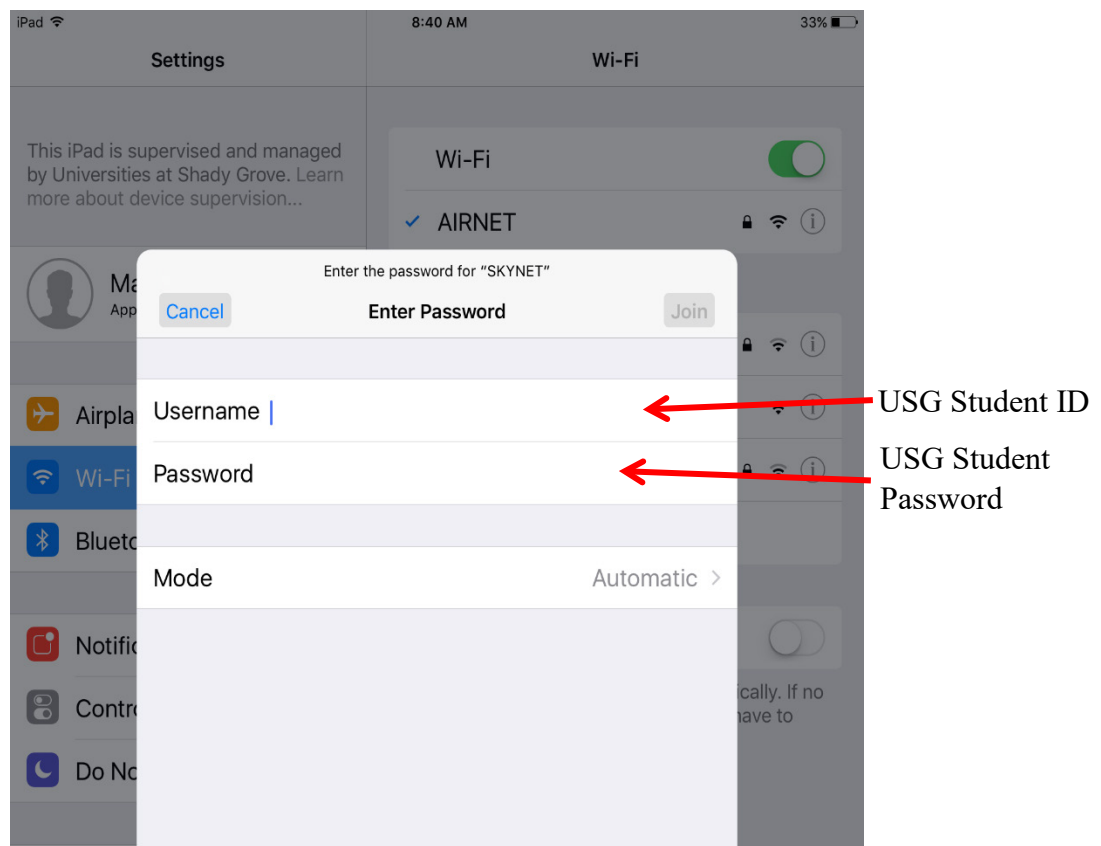

2. Once in Setting menu, select the **Wi-Fi** option.

- Once in Wi-Fi under **Choose a Network** select “SKYNET” (Make sure to remove Grove by selecting the current used Wi-Fi and select “Forget This Network”).

- On the next screen that shows up enter your USG login credentials.

- Press **Join**.
- When prompt for a wireless certificate, select **Trust** to continue.
