RE: COVID-19 Reminders
Date: May 11, 2022

As we have nearly reached the end of the spring semester, we'd like to pause and offer a word of gratitude for everyone in our USG Community who has done their part in making our campus as safe as possible. Thank you!

Now on to a few reminders:

- Face masks - The COVID-19 environment continues to change; we are in the midst of an increase in cases across the state, and here in Montgomery County the community level has reached 'Medium' as defined by the CDC's [COVID-19 Community Level Status](#). Given this status, we are emphasizing that masks are strongly recommended indoors when in group settings and continue to be required in all classroom settings.
- Reporting a positive COVID-19 case - If you test positive, please report your case through the designated resource for your home campus. These can be found on the [USG Onward](#) page under the 'Health and Safety Guidelines' section. USG staff are to contact the HEAL line at 301-405-4325.
- COVID-19 testing resources - The USG testing clinic that runs on Thursdays will have its last day of operations on Thursday, May 19. The Wednesday clinic operated by Montgomery County will continue to be available.

And finally, as a general reminder, please stay home if you are experiencing any symptoms of COVID-19 and get tested.

Thank you. We wish you all a successful - and healthy - end to the spring semester!
