Advisor Role

Organizations are required to have an Advisor. Selection of a particular person as advisor is the choice of the organization and is by mutual agreement of both parties.

For an advisor to be effective it is very important that they be kept informed as to the operation and needs of the organization. It is the responsibility of the student leaders to see that the advisor receives all meeting notes and is kept abreast of upcoming events and meetings.

The advisor serves as an available resource to the organization members.

Advisors Must Commit To:

1. Be familiar with the organization's objectives, mission and goals.
2. Meet regularly with leaders to give them support and encourage them to accept their responsibilities, meet their goals and develop as leaders.
3. Be familiar with student org rules and procedures to assist leaders in their efforts to plan their events and meetings.
4. Be able to help members explore alternatives as they plan activities and events, realizing that final decisions and organizational management is the responsibility of the members.
5. Help leaders during periods of transition in an effort to maintain continuity.
